

To reinforce our Quality team near Budapest, we are seeking a

SUPPLIER QUALITY MANAGER

[all genders]

Vincotech

The position is based in Europe (Bicske, Hungary and flexible option to home office), occasional business travel.

Vincotech is the go-to source for power modules that drive motion control, renewable energy, and power supply applications. We work hard to deliver off-the-shelf and made-to-order products to meet all our customers' needs.

Fast and flexible is our motto. Everything we do gets done with the future in mind. This is where you come in. Join us, a successful market leader and reliable partner, to help build a better tomorrow with sustainable technologies. Let's make an impact together.

Headquartered in Unterhaching near Munich, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of 9000 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

Your skills are in demand. We need you to:

- / Lead the SQA team and actively participate in supplier development work, represent the supplier quality team in cross-functional matters
- / Co-operate with Strategic Purchasing in developing the supplier audit plan, support Strategic Purchasing by performing supplier audits
- / Handle complaints for purchased parts and communicate with suppliers in case of malfunctioning parts and assure corrective actions
- / Maintain the incoming data, reports in the ERP system. Manage the quarantine area for malfunctioning parts/products, and assure defect-free deliveries of purchased part to production
- / Prepare control plans for purchase and execution of incoming goods inspection according to test planning
- / Evaluate supplier quality capability and prepare necessary reports. Monitor supplier performance and coordinate Quality Review activities and meetings
- / Assure Supplier Part Submission Process for new and changed products
- / Identify and utilize appropriate statistical tools, mentor and train team members in use of the statistical applications and techniques
- / Actively work with suppliers in improving quality components of goods and services, and ensure that all necessary documentation is maintained in an up-to-date state

Your credentials are persuasive. You have:

- / Minimum of 5 years' experience in quality assurance of supplied parts
- / Degree of Technical or Electrical Engineering
- / Excellent command of English language
- / At least 3 years' leadership and 5 years' work experience in quality engineering, preferably in electronic industry
- / Knowledge of management, quality techniques. Experience of problem solving skills and negotiating skills. SAP experience is appreciated
- / Strong interpersonal skills with ability to effectively communicate at all levels with both internal parties and with suppliers
- / Ability to work in a cross-functional environment
- / Proven track record of problem-solving, multi-tasking and project management skills
- / Knowledge of processes of electronic manufacturing, quality techniques [FMEA, CP, DOE, PPAP, MSA, statistical analysis etc]

Join us and take this opportunity to:

- / Be part of a company, which is a key enabler of efficient and affordable energy use everywhere, which is one of the most important megatrends of our society and a necessity for generations to come
- / Drive change and have a direct impact on future business and the future of Vincotech
- / Be part of a motivating company culture where flat hierarchies and quick decision-making are realities rather than wishful thinking
- / Find long-term career prospects, an attractive salary and very good benefits – all this can be part of your priority package at Vincotech

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
