

To reinforce our EHS team we are seeking an

ENVIRONMENTAL COMPLIANCE ANALYST

[all genders]

Vincotech

The position is based in Europe (Bicske, Hungary, flexible option to home office), occasional business travel.

Vincotech is the go-to source for power modules that drive motion control, renewable energy, and power supply applications. We work hard to deliver off-the-shelf and made-to-order products to meet all our customers' needs.

Fast and flexible is our motto. Everything we do gets done with the future in mind. This is where you come in.

Join us, a successful market leader and reliable partner, to help build a better tomorrow with sustainable technologies. Let's make an impact together.

Headquartered in Unterhaching near Munich, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of 900 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

Your skills are in demand. We need you to:

- / Manage supplier portfolios and databases:
 - / Extract and manage supplier contacts, part types and other essential information from various systems
 - / Engage with suppliers to gather part-level compliance information from sources such as websites, databases, emails and test reports
 - / Validate and store declarations, ensuring data in our PLM database remains accurate
- / Continuously monitor compliance:
 - / Stay up to date on and ensure compliance with key EHS and sustainability regulations and standards, including but not limited to REACH, ROHS, TSCA, California Prop 65, POPs, PFAS, conflict minerals, LCA, and carbon footprint
- / Prepare compliance reports:
 - / Produce comprehensive compliance reports tailored to customer requirements [FMD]

Your credentials are persuasive. You have:

- / A degree in environmental, materials or chemical engineering, or in environmental science, chemistry or economic law
- / Good verbal and written communication skills in English and Hungarian
- / A working knowledge of MS Office [Excel, Word, PowerPoint] and database management tools [SAP, PLM]
- / A firm grasp of all EHS and sustainability regulations and standards
- / Experience in the electronic engineering industry is a plus

You are:

- / Analytical, detail-oriented, proactive, and passionate about environmental compliance and sustainability
- / Prepared to take on new challenges and contribute to a greener future
- / Self-motivated, reliable, well-organized and able to prioritize

Join us and take this opportunity to:

- / Tackle challenging, meaningful projects that drive sustainability and compliance efforts
- / Grow your career at a company that invests in your professional development
- / Be part of a company, which is a key enabler of efficient and affordable energy use everywhere, which is one of the most important megatrends of our society and a necessity for generations to come
- / Drive change and have a direct impact on future business and the future of Vincotech
- / Be part of a motivating company culture where flat hierarchies and quick decision-making are realities rather than wishful thinking
- / Find long-term career prospects, an attractive salary and very good benefits – all this can be part of your priority-package at Vincotech

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
