

To reinforce our IT development team we are seeking a

IT ENGINEER - DEVELOPMENT

[all genders]

Vincotech

The position is based in Europe (Bicske, Hungary, flexible option to home office), occasional business travel.

Vincotech is the go-to source for power modules that drive motion control, renewable energy, and power supply applications. We work hard to deliver off-the-shelf and made-to-order products to meet all our customers' needs.

Fast and flexible is our motto. Everything we do gets done with the future in mind. This is where you come in.

Join us, a successful market leader and reliable partner, to help build a better tomorrow with sustainable technologies. Let's make an impact together.

Headquartered in Unterhaching near Munich, we also own and operate a plant in Bicske, Hungary, and maintain sales offices around the world. Our global team of 900 people welcomes you to Vincotech, a Mitsubishi Electric Corporation company.

Your skills are in demand. We need you to:

- / Design, develop and maintain high-quality software solutions using Microsoft .NET and SQL technologies and best industry practices
- / Implement web services and interface solutions using JSON, Rest API and MQTT technologies
- / Collaborate with business stakeholders to gather, understand and translate requirements into specifications
- / Analyze requirements; design and document systems
- / Troubleshoot issues and integrate advanced testing methods into our processes
- / Continuously improve software development processes and practices
- / Deliver ongoing system support
- / Provide technical guidance and support within the IT development team

Your credentials are persuasive. You have:

- / A Bachelor's or preferably a Master's degree in computer science, engineering or a related field
- / 4+ years' experience as a software developer focused on Microsoft .NET and SQL technologies
- / A firm grasp of Microsoft systems and technologies
- / A logical, systematic way of thinking and a collaborative, analytical approach to solving problems
- / A can-do attitude towards proactively addressing challenges and improving processes
- / Excellent verbal and written communication skills and the interpersonal skills of a strong team player
- / Familiarity with Agile methods
- / Experience with various testing methodologies
- / Working knowledge of CI/CD practices and Atlassian tools (Jira, Confluence, Bitbucket) is a plus

Join us and take this opportunity to:

- / Be part of a company, which is a key enabler of efficient and affordable energy use everywhere, which is one of the most important megatrends of our society and a necessity for generations to come
- / Drive change and have a direct impact on future business and the future of Vincotech
- / Be part of a motivating company culture where flat hierarchies and quick decision-making are realities rather than wishful thinking
- / Find long-term career prospects, an attractive salary and very good benefits – all this can be part of your priority package at Vincotech

We welcome your application and look forward to discussing how Vincotech can become your next career choice.
