VINCOTECH DONATES €15,000 TO RELIEF INITIATIVE

-- Proceeds go to Plan International Germany to help children affected by the conflict in Ukraine. --

Unterhaching, Germany, December 14, 2022. Vincotech, a supplier of module-based solutions for power electronics, is carrying on its Christmas tradition of donating to a good cause in lieu of sending gifts to customers. Plan International Germany is again the company's partner in philanthropy. The aid organization is to receive a €15,000 grant awarded by Vincotech on behalf of its workforce and customers. It will fund an initiative to support children and families driven from their homes in Ukraine.

War not only puts children in danger of physical harm; it also exposes youngsters to severe emotional distress. These unseen wounds remain long after the fighting stops. Plan International is working with organizations in countries bordering Ukraine to provide relief to children and their families suffering from this conflict. These initiatives in Poland, Romania and Moldova include child protection, mental health, education and advocacy programs, as well as cash and vouchers.

"As the suffering in Ukraine continues, we must spare a thought for the victims of this war. They will not be forgotten during the holiday cheer," says Vincotech CEO Eckart Seitter. "Besides, this is a personal matter for us at Vincotech. The war may seem distant, but we are connected with the country and its people. Ukrainians have long been valued members of the workforce at our plant in Bicske, Hungary. We do everything we can to support our colleagues, and their compatriots deserve no less. This is why the proceeds of our gaming event at the PCIM expo in May went to Plan International Germany projects to support Ukrainian kids. Now this donation will go to the same worthy cause."

A happy holiday season to all from Vincotech. Visit our website to learn more about the Ukraine donation.

ABOUT PLAN

Plan International is an independent organization for development cooperation and humanitarian aid. The organization believes that girls and boys worldwide must have equal rights and opportunities and be able to actively shape their future. In order to achieve this, Plan International efficiently and transparently carries out sustainable community development projects and reacts rapidly to emergencies and disasters that threaten the lives of children. Plan International works together with children, youths, supporters and partners of all genders to achieve their global aim in more than 75 countries: to transform the lives of millions of girls so that they are able to learn, lead, decide and thrive. The sustainable development goals of the United Nations reinforce their commitment.
