***flow*PACK 0B** **1200 V / 15 A**

Features

- IGBT4 (1200V) technology
- Open emitter topology
- New ultra-compact housing
- Single-screw heat sink mounting

Target applications

- Dedicated design for motor drive

Types

- 10-0B126PA015SC-M999F09

*flow*0 17mm housing

LIFE SUPPORT POLICY

Vincotech products are not authorised for use as critical components in life support devices or systems without the express written approval of Vincotech.

As used herein:

1. Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body, or (b) support or sustain life, or (c) whose failure to perform when properly used in accordance with instructions for use provided in labelling can be reasonably expected to result in significant injury to the user.
2. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
